Receive £2 to £4 for every LOOP pallet returned

Get rewarded for reusing
and recycling your pallets

Benefits of keeping green pallets in the LOOP

Cash back in your pocket

Return green pallets and earn £2–£4 per pallet. High-volume branches can generate thousands of pounds in credits every year – money that goes straight back into your business..

Cut carbon footprint

Every pallet returned means one less needs to be made. That saves timber, energy, and transport emissions, helping your branch meet sustainability targets with no extra effort.

Tidier, safer yard

Pallets left lying around create hazards. A simple, organised pallet station keeps your yard safer for staff and customers and reduces damage from forklift incidents.

Protect supplier relationships

Suppliers rely on their pallets being returned. Misuse puts the supply chain under strain and can affect future delivery terms for your branch.

Green LOOP pallets are not storage platforms – they are part of a circular-economy scheme that saves your business money, reduces landfill waste, and earns cash back. Every green pallet misused costs the business real money. Keeping them moving is one of the simplest things your yard can do.

£4

Per pallet – good condition

Clean, undamaged green LOOP
pallets earn the full £4 credit each.

£2

Per pallet – damaged but repairable

Dirty or minor damage still earns £2
each – don't discard them.

What is The Pallet LOOP?

The Pallet LOOP is the UK's first circular economy pallet reuse scheme designed for the construction industry.

Our service makes it simple to recover, repair and reuse pallets - cutting waste and costs while helping the environment. Within just three days of your request, we collect any type of pallet from your site.

By returning our distinctive green LOOP pallets, you'll also earn **£2 to £4** back per pallet.

What we collect

We accept green LOOP pallets, as well as branded or unbranded white pallets (including plasterboard pallets). As long as pallets are safe to stack and load, we'll take them. See examples below of accepted pallets.

Not accepted: waste timber or pallets that are destroyed, contaminated, unsafe, or beyond economical repair.

How it works

Request a collection

- Call us on **0800 024 6130** (8am–5pm), email collections@thepalletloop.com or visit www.thepalletloop.com.
- Provide your site details, purchase order number, and the number of pallets.

Costs & credits

- **£2** credit for every green pallet that is damaged or dirty but repairable.
- **£4** credit for every green pallet that is in good condition.
- **£2** charge per white pallet collected (no charge for the collection of green LOOP pallets).
- **£135** transport charge for collections of under 50 pallets
- **£35** transport charge for collections of 50–99 pallets
- **NO** transport charge for collections of 100 or more pallets

Prepare your pallets

- Stack neatly by size, max 2.4m high (around 15 pallets).
- Use a forklift or telehandler if available; otherwise, let us know so we can bring the right vehicle.
- One hour is included for loading; extra time is charged at **£75/hour**.
